

# Backyard Animals

Name: \_\_\_\_\_

Pick a spot in your yard, a park nearby, or a window in your home. Watch for animals and write or draw your observations in the chart.

## My Animal Observations

|         | Animal     | What does it look like?   | What is it doing?                   | I wonder...                   |
|---------|------------|---|-------------------------------------|-------------------------------|
| Example | Woodpecker | <i>It's small. It's brown with stripes and has red on its head.</i> | <i>Eating seeds at bird feeder.</i> | <i>How does it stay warm?</i> |
|         |            |   |                                     |                               |
|         |            |   |                                     |                               |
|         |            |   |                                     |                               |
